BEST CHOICE

FOR FIRE ZONES

This collection has an Ignition Resistant designation, Class A Flame Spread Rating, and is WUI Compliant.

MULTIWIDTH DECKING

FOR DESIGN FLEXIBILITY

For design-forward clients, choose from narrow (3.5"), standard (5.5"), and wide (7.25") width deck boards to create a curated design. Available with all colors in the Vintage Collection.

MAX DECKING

FOR WIDER JOIST SPANS

MAX boards are 1.5" thick and can span up to 24" on center, making them ideal for docks, boardwalks, and many decking applications. Available in Coastline.

PROFILE OPTIONS

*Riser Boards are compatible with Cortex plugs.

Vintage Collection® in Multiwidth Coastline®

*Depending on environmental conditions, TimberTech Advanced PVC Deck colors may appear to change over time as part of the natural weathering process consistent with the warranty guarantees where applicable. **Although TimberTech Advanced PVC decking is cooler to the touch than many other composite deck boards, all decking products will get hot in the sun. Additionally, the darker the decking color, the hotter it will feel. For hotter climates, consider choosing a lighter color.

Landmark Collection® in French White Oak®

Harvest+ Collection in Timber Gray
RadianceRail Express® in White

LANDMARK COLLECTION®

Crosscut Hardwoods

For a look that resembles popular hardwoods like white oak and walnut, choose the Landmark Collection. Featuring a crosscut cathedral grain with a matte finish and cascading color blending, this collection is perfect for clients looking for a character-rich style.

WUI-COMPLIANT FIRE-RESISTANT SKUS

FOR FIRE ZONES

The fire-resistant (FR) SKUs of the Reserve Collection are WUI Compliant, making them a smart choice for fire zones.

TERRAIN+ COLLECTION™

Subtle Wood Grain

For clients who want maximum style for their dollar, we offer the new Terrain+ Collection. It features the same lightweight, scalloped profile, but with an updated color palette. Thanks to new and improved color blending technology, these boards deliver sophisticated colors with a subtle grain pattern like sanded white oak and walnut for a versatile, natural wood look. It's also our first scalloped board that's compatible with Cortex plugs.

*Although TimberTech Advanced PVC decking is cooler to the touch than many other composite deck board products, all decking products will get hot in the sun. Additionally, the darker the decking color, the hotter it will feel. For hotter climates, consider choosing a lighter color.

All printed samples are carefully reproduced to be as close to the actual sample as possible. Actual colors may vary due to printing limitations.

FASTENERS

TimberTech fasteners are uniquely designed to work with TimberTech Decking. For the best possible installation, don't settle for anything less.

CONCEALOC®

Clips with a matte brown finish secured to joists with screws in between grooved boards for a hidden appearance.

- Hidden fastener system that can be installed pneumatically with the FastenMaster Tiger Claw Gun or using a drill or hand driven using a drill driver
- Stainless steel clips and screws for long-term performance
- Compatible with all TimberTech grooved deck boards

Designed for *Style*. Built for **Performance**.

For more than 25 years, we have been helping people create the outdoor space of their dreams. Our manufacturing processes and quality standards ensure the Envision decking and railing products you choose for your new outdoor space not only provide unmatched character and style, but they also offer performance you can trust.

Compression molded, not extruded, to create decking that's dense, strong, and engineered to last.

Less moisture absorption and resistant to splitting, splinters, insects, and rot.

Deep, non-repeating grain and striking colors make each board truly unique, emulating exotic hardwoods.

Four materials designed to meet the needs of any architectural style, environment, or application.

Products engineered to the highest quality standards ensure a stunning and safe outdoor space.

Hundreds of possible combinations enable inspired design to exceed expectations.

“

Envision decking is dense. We know that it will take a screw cleanly with lots of holding power due to the density of the product. The same with cutting. The density reduces chip-out and ensures a clean cut every time.

ROBIN LOPEZ,
Summertime Deck & Dock FL

DID YOU KNOW?

The slip resistance of our capped composite decking makes it an ideal choice for docks.

The trusted choice of professionals

Trex is the top preferred decking brand over wood and other composites. Commercial and residential building professionals have turned to Trex for more than 30 years to create enviable outdoor spaces. With guaranteed performance ranging from 25 to 50 years, our low-maintenance surfaces result in builds with enduring curb appeal.

Trex has been recognized with awards for product excellence and innovation from organizations representing architects, homebuilders, contractors, distributors and dealers, and we continually set and raise the bar for the composite decking category.

New railing products bring the strength and sleek design of metal railing within reach for all projects. With a broader range of infill options, there are now even more beautiful alternatives to wood to explore.

With a commitment to innovation, Trex has curated a composite decking fastening system that simplifies the building process. The Trex Hideaway® Fastener Collection stands as a comprehensive and versatile solution, offering the technology and tools needed for a seamless composite deck installation.

Trex composite decking is sustainably made in the USA from up to 95% recycled plastic film and reclaimed wood.

Trex was ranked by *Newsweek* as one of America's Most Responsible Companies 2024, and won *Green Builder Media's* Sustainable Brand Leader in the decking category for the 14th consecutive year.

Decking

Stylish composite decking outperforms
wood for hassle-free outdoor living

Highly Durable

Composite deck boards that stand up to both weather and weekend mishaps alike—they won't rot, warp, splinter, fade or stain.*

Easy Care & Cleanup

Our boards need no sanding or staining. No kidding. Easy soap & water cleanup keeps decking like new.

Always Green

Made in the U.S.A. using up to 95% recycled plastic film and reclaimed sawdust.

DECKING:
Trex Signature in Whidbey (WY)

Heat Mitigating

Only Trex offers SunComfortable™, the most advanced heat-mitigating technology. Deck colors with this symbol are engineered to be noticeably cooler than boards of a similar color without heat-mitigating technology in the same sun and heat conditions.**

Water Friendly

Every Trex composite board is submersible and beautifully repels water in all forms. Saltwater, lake water, rainwater, pool water, and yup, even that bottled water that got out of hand.

Fire Resistant

Boards with this symbol are Wildland Urban Interface (WUI) compliant, making them an excellent option for areas prone to wildfires for a common sense approach to safely living your life outdoors.

DECKING:
Trex Transcend Lineage in Biscayne (BC)

*See limited warranties on page 46 for further details.

**Our SunComfortable™ products with heat-mitigating technology are designed to be cooler than most other composite decking products of a similar color. Although engineered to be more comfortable, they can still get hot to the touch when direct sunlight and high temperatures converge for extended periods of time. On such days, care should be taken.
